

The Washington State Lake Protection Association

2008 Scholarship Announcement

The Washington State Lake Protection Association (WALPA) announces scholarships to support undergraduate and graduate students in their pursuit of degrees specializing in the fields of Environmental Science.

WALPA is a non-profit organization formed in 1986 by a group of volunteers concerned for the future of Washington Lakes. WALPA has grown to over 200 members, including lakeside residents, lake associations, recreationists, scientists, educators, legislators, and local and state agencies. Through WALPA, separate entities with diverse interests speak with a united voice. WALPA members financially support the WALPA Scholarship.

WALPA will award one \$1000 scholarship and one \$750 scholarship in May, 2008. The \$1000 scholarship is an honorary scholarship dedicated to the remembrance of Nancy Weller. Nancy Weller worked for Washington State Department of Ecology for 13 years, eight of which were in the Eastern Regional Office. Nancy was very dedicated and interested in working with people on lakes, aquatic plants and improving the environment.

Scholarship funds may be used by recipients to cover the costs associated with education and/or research expenses. Eligible applicants must be enrolled as a part or full time, undergraduate or graduate student in an accredited college or university and be completing course work or research related to biology, hydrology, ecology and management or restoration of lakes and watersheds in Washington or Idaho. The guidelines for applying are described below.

Both scholarship recipients will additionally receive a one-year membership in WALPA and a waiver of registration fees for the 2009 conference. Scholarship recipients will also be invited to give a presentation on their research at the 2009 conference.

A committee consisting of academic, industry, and agency representatives will judge applications. Judging will not be done by individuals with a personal or institutional affiliation with the applicant. Winning applications will be chosen based on the quality of research topic, its significance to the fields of Environmental Science, particularly limnology and hydrology, and relevance to the applicant's interests and career goals.

Application Procedure:

Applicants must provide a one-page resume and recent transcripts of all college/university course work. Applicants must also provide a one-page statement of interests, including career goals, research interests, and intended use of scholarship funds. The statement of interest should also explain why their research is of importance to the field of limnology and/or watershed management. A recommendation from someone in the applicant's field of study is encouraged, but not required.

All application materials should be sent to the WALPA Scholarship Program Committee by **April 15, 2008**, email submission of the application is preferred. The scholarship recipients will be contacted by the Scholarship Program Committee in May 2008, and announced at the 2008 WALPA conference in Arlington, WA, September 30 – October 1.

Please send all application materials to:
